Assistant Commissioner of Patents

Washington, D.C. 20231

Sir:

In response to the Office Action dated September 30, 2002, please amend the application as follows:

11. (Twice Amended) A holder and flag device comprising:

4B1 a. a suction cup having a cup portion and a neck extending from the cup portion, the neck containing a transverse bore having a multi-sided cross section, and

b. a flag having a display portion attached to a pole, at least a portion of said pole having a multi-sided cross-section complementary to the bore, said portion fitted within the bore so that
